

# Project Sheet

## Quick Christmas Cards

### Materials (for 10 cards)

5 x A4 white cardstock  
1 x A4 black cardstock  
1 x 12"x12" pattern paper  
1 x Darkroom Door Wordstrip  
1 x Darkroom Door Montage sheet  
Double sided tape  
Trimmer or craft knife, ruler & cutting mat  
Bone Folder

### Instructions

Cut the A4 white cardstock sheets in half (14.8cm)  
Fold the 10 card bases in half and press the fold with the bone folder for a crisp edge.  
Cut 2 strips from the 12"x12" pattern paper, 14.8cm wide.  
Cut each of the pattern paper strips into 5 pieces that will measure 6cm x 14.8cm  
Apply double sided tape to the pattern paper and stick one on each card base, to the left, off centre.  
Cut greeting strips from the Wordstrip. Cut a strip of black cardstock slightly wider than the Wordstrip.  
Apply double sided tape to the back of the Wordstrip greeting, then stick to the cardstock and trim, leaving a border to create a black mat.  
Cut out pictures from the Montage sheet and apply double sided tape to the back.  
Stick the Montage pictures to the black cardstock and trim, leaving a border to create a black mat.  
Apply double sided tape to the back of the matted greetings & Montage photos and apply one greeting and one (or more) pictures to each card base.  
If you wish to upgrade the look, you could add a 2nd mat using red cardstock, and add some embellishments to your card such as flowers, charms, ribbon, brads, etc.  
Enjoy!

If you are clever, you can make 12 cards from the same materials by cutting each of the 14.8cm pattern paper strips into 6 even pieces of 5cm x 14.8cm. You will just need to cut an extra two Wordstrip greetings and Montage photos, and cut 1 more piece of A4 cardstock in half & fold.

On the show I made my cards using Darkroom Door Wordstrips & Montage 'Dear Santa', the pattern paper was from a Grace Taylor paper pack. The alternative cards I showed used the Ruby Rock It 'Joyeux Noel' paper pre with preprinted pattern blocks.
